The new business network  
for Expo, first placed in Milan  
Chamber of Commerce Expo  
Network Tender.

The Symbios network has  
been awarded for the  
thematic and innovative  
approach to the  
environmental development  
towards Milan Expo 2015.

The network will define the  
developments of the technical  
itineraries to allow the convey  
of the most important  
industrial enterprises  
connected to the bio-economy  
in three business areas:  
Agrifood, Green Chemistry and  
Life Science.

Strategic and challenging  
issues for the further  
development and innovation,  
as well as key areas of Expo  
2015, focused on agribusiness  
and energy debate, in order to  
promote innovation, growth  
and competitiveness of the  
actors involved, with effects  
and impacts on regional ,  
national and international  
level.

A Network, opens to new  
co-operations, which intends to  
become the focus point for  
professional relationships between  
Italian food main industries and  
foreign partners, increasing the  
visibility to the high-level national  
enterprises which will join the  
network, in a worldwide scenario.
