

What is LIFE?

LIFE (2014-2020) is the continuation of the LIFE programme adopted in 1992 to support EU environmental and climate policy and legislation

The LIFE programme is the EU's funding instrument for the environment and climate action, providing €3.46 billion of support from 2014-2020.

The **Environment** sub-programme covers three priority areas: Environment and Resource Efficiency; Nature and Biodiversity; and Environmental Governance and Information.

The **Climate Action** sub-programme prioritises Climate Change Mitigation; Climate Change Adaptation; and Climate Governance and Information.
