

Event promoted in collaboration with the Interregional Federation of Agronomist and Forestry Doctors of Piedmont and Valle d'Aosta

# *Towards a European strategy for soil protection*

**SUCCESSFUL EUROPEAN CASES AND THE MOST INNOVATIVE METHODS TO CONTRAST LAND USE, DECONTAMINATION AND REMEDIATION OF POLLUTED SITES**

The elimination of SOIL CONSUMPTION and promoting sustainable methods of RECLAMATION and REGENERATION of SOILS POLLUTED are two of the pillars of the Thematic Strategy for soil protection promoted by the EU. There are 340,000 sites throughout Europe that require remediation and only 15% of these have been carried out or are being remediated.

The adoption of good practices on the protection and remediation of polluted soils is still largely far from widespread and effective diffusion.

The conference aims to share TECHNOLOGICAL SOLUTIONS and SUCCESSFUL METHODS able to become a SUSTAINABLE and REPLICABLE MODEL at the EUROPEAN level.

## PROGRAM

- 10.00 Welcome  
**Cristina Giovanna Varese**, University of Turin  
**Ilaria Re**, Consorzio Italbiotec
- 10.30 PhytoSUDOE. Phytoremediation for the improvement of biodiversity and restore ecosystem services  
**María Balseiro-Romero**, University of Santiago
- 11.00 S.O.S. 4 LIFE – Save Our Soil for LIFE  
**Stefano Bazzocchi**, Forlì Municipality
- 11.30 BioresNova. Soil and contaminates sediments recovery and exploitation  
**Simona Di Gregorio**, University of Pisa  
**Alessandro Gentini**, Teseco reclamation
- 12.00 Kill Spill. Integrated biotechnological solutions for combating marine oil spills  
**Fabrizio Beltrametti**, Actygea Srl
- 12.30 Re-Horti: Strategies to reuse urban areas for horticulture  
**Valeria Tigini**, University of Turin

JULY 13<sup>TH</sup> 2018
